

IN-CLASS EXERCISE

The CSS Box Model

DESCRIPTION

Using the HTML document provided to you, complete as many of the following CSS challenges as you can and submit the resulting CSS, HTML and images in a .zip archive to the appropriate exercise on Blackboard.

INSTRUCTIONS

Follow the comments in the provided code carefully. You will only need to edit the CSS document. Be sure to watch the effect each new CSS rule has in the browser. Use a variety of browsers to see if you can see any differences in rendering.

SUBMIT YOUR WORK

Once you have completed as many of the above CSS challenges as you can, .zip up all the CSS, HTML and image files into one file and submit to the exercise on Blackboard. Try to get as many of the above challenges complete as you can in the available class time.

EVALUATION

Criteria	Mark
Exercise is complete and submitted by the end of the day.	Complete
